"Jindaa - The Real Gang Story has given me my turning point in my career and is the most expected movie. Based on a real story, my role in Jindaa is quite out of the box", Says Yuvraj.

Promising Star YUVRAJ

This Mussanje Mahesh directorial is imbibed from a real story witnessed in 1970's. Yuvraj talking about his role says that, "My role was challenging because I had to work every detail of the character starting from behavioral to physical appearance in retro style as the movie is based on real incidents and I had to replicate them and give justice to the role". Yuvraj also adds that, all this was possible only because of his director who is immensely talented and supportive. "Mahesh sir someone who has knowledge in abundance, the more you dig for it, the more you will be in benefit", adds Yuvraj. "Producer Dattatreya Bachegowda also helped me alter my role as they all belonged to that timeline, they easily helped me understand". Yuvraj finally says that he is quite happy to work under such huge team and banner, and is expecting audience to support him.
